 February 23<sup>th</sup> 2019  
 9 AM- 7 PM  
 The Museum in the Park  
 Stroud  
 Gloucestershire

# Animal Nature

## Understanding the Nature of Animals

*Join us for this workshop in which we will seek a deeper understanding of 'animal nature'. Drawing on insights from a range of disciplines (science, art, agriculture and ecopsychology) we will delve into the many ways in which our lives interface with those of the animals around us.*

*'Creatures of silence  
 emerged from the clear  
 unfettered forest, from dens,  
 from lairs.  
 Not from shyness,  
 this silence of theirs;  
 nor from any hint of fear,  
 simply from listening.'*  
 R.M. Rilke - Sonnets to Orpheus

### Morning Sessions

#### Animals Underground

**Dr Liz Hamilton**

Environmental Sciences: University of Gloucester

#### Seeing the Animal Whole

**Ed Berger**

Biodynamic Land Manager: Ruskin Mill Trust

### Afternoon Sessions

#### Encountering Animal

**Roger Duncan**

Systemic Family Therapist

#### Animal Ethics: Perspectives

**Dr Isis Brook**

Research Fellow Crossfields Institute International

#### Animals & Transformation

**Jonathan Code**

Director and Researcher Crossfields Institute International

Full attendance  
**£65**  
 (light lunch included)
